

September is Life Insurance Awareness Month

This month was created by the LIFE Foundation with the purpose of providing much-needed life insurance education to the homes of millions of Americans. During this month, consumers are encouraged to spend a few minutes learning about awareness of types of life insurance and reviewing policies that you have.

About 30 percent of America household have no life insurance.

Many people think that life insurance is to expensive.

Your employer provides life insurance coverage. Is it portable?

For most people, their most valuable asset is their earning power to protect the family. The average spent *on take-out food is \$75 a month.* Need a quote for life insurance?

During this month, I will be providing information about life insurance by email and Facebook.

Make sure your future is secured.
